

# Water for Climate Impact Programme Peatlands Call

# Application form - Concept note

#### A note about data protection

IUCN adheres to a strict <u>Data Protection Policy</u>, which abides by EU General Data Protection Regulation (GDPR). The information you provide will be analysed by IUCN and partners of the Water for Climate Impact Programme. The raw data will not be shared outside the participating institutions. The data will only be used for the purpose of this call for proposals, and will be deleted within 6 months should your application not go any further.

#### A. ELIGIBILITY

Before starting your application, please read carefully our <u>application guidelines</u> to understand what we are looking for in our investments.

Is the project eligible for the W4Cl Peatlands Call?	Yes	No
The project contributes to peatland conservation and restoration efforts, reducing risks to and increasing resilience of peatland ecosystems and vulnerable communities that depend on peatlands for their livelihoods.		
The project does no harm (i.e. has no negative impacts on communities or ecosystems it is designed to build resilience in).		
The project offers a profitable revenue model.
